TELEGRAMS

(via Galveston.)

Paris, 13th—The *Pays* says that King Humbert is trying to arrive at an arrangement with the Pope, to solve the question between the Vatican and the State. It adds that His Holiness has already expressed satisfaction at the probable result of the negotiations.

London, 13th—The *Daily Telegraph* publishes a long article by Count Tolstoi on the famine in Russia in which he declares that the accusations made against the Russian Government and its representatives are exaggerated. He says that the charge of indolence is unfounded in many cases, and that the Imperial Treasury has spent much more than the 65 millions of roubles said to have been devoted to relieve the urgent wants of the poor.

London, 13th—The greatest anxiety prevails in all classes of society about the health of the Duke of Clarence. The congestion of the lungs has become most serious. The public openly express their fears that the Duke will die. The bulletin published this evening states that most serious symptoms have supervened and that the condition of the patient is very critical.

Hong Kong, 13th—The steamer Nacchow has been wrecked. 414 persons drowned.

Leeds, 13th—A terrible fire has broken out amongst the inflammable materials stored underneath the station of the North-West Midland Railway.

Rome, 14th—Cardinal Simeoni is seriously ill with influenza.

London, 14th—The medical bulletin of this morning announces a slight improvement in the condition of the Duke of Clarence.

Cardinal Manning is dangerously ill. He caught a bad cold yesterday and has become worse so rapidly that it is feared he may die at any moment. He has received the last sacraments.

Gibraltar, 14th—The Channel Squadron has sailed for Morocco.

Alexandria, 14th—Six British men-of-war are lying in this port to receive Prince Abbas, who will arrive here on Friday.

Tangiers, 14th—The revolutionary movement is spreading. The dismissal of the Governors of the territories occupied by the rebels has been called for.

London, 14th—Ninety-five deaths from influenza have occurred here in the past week.

Rome, 14th—Cardinal Simeoni is dead.

Seville, 14th—Part of this city is inundated owing to the overflow of the Guadalquivir. Great damage done.

London, 14th—The Duke of Clarence has just died. Also Cardinal Manning.

£300,000 have been withdrawn from the Bank of England for South America.

DEATH OF THE DUKE OF CLARENCE.

We have to announce the painful intelligence of the demise of Prince Edward, presumptive heir to the throne of the U. Kingdom, on the eve of his marriage. It is a remarkable fact that the Prince of Wales's two sons should have been stricken with disease almost at the same time, and that one of them should succumb. His Royal Highness the Duke of Clarence had only recently taken his seat in the House of Lords, and the nation looked forward with satisfaction to his approaching marriage because his affianced bride was an Englishwoman. No heir to the crown had married an English wife since the Duke of York, in the reign of Charles II.

Albert Victor Edward, generally called Prince Edward by his father, mother and sisters, but by the Queen Prince Albert Victor, was born 8th January 1864, and had therefore just completed his 28th year. He was only 13 years of age when the Prince of Wales consigned him to the care of Capt. Fairfax, H. M. S. Britannia, who had just returned from command of the River Plate station. After two years in the Britannia the young princes, Edward and George, were sent to sea, in H. M. S. Bacchante, which formed part of Lord Clanwilliam's flying squadron. Our readers will remember the visit of the princes to Buenos Ayres and Montevideo in the year 1880.

The princes afterwards spent some time as naval officers on the South African and Australian stations, returning to England in 1882. It was then deemed advisable to send Prince Edward to college, entering him as an undergraduate at Trin. Coll. Cambridge and afterwards at Heidelberg. Finally it was resolved to put His Royal Highness into the army, and to this end he spent some time at Aldershot.

Most of the London papers, in mentioning his approaching marriage, hinted that the Duke of Clarence was likely to be made perpetual Viceroy of Ireland until the Crown of the U. Kingdom should devolve upon him. Perhaps Lord Salisbury had this in view when he made him Duke of Clarence and *Avondale*, the latter place being the ancestral home of Mr. Parnell and one of the loveliest places in Ireland. Superstitious people will perhaps see in the early death of the Duke another proof that the title of Clarence is unlucky.

The next heir to the princedom of Wales and prospectively to the throne of G. Britain and Ireland is Prince George. It is by no means improbable that he may marry his cousin, the charming Princess May of Teck, after the grief of the present painful event shall have passed over.

DEATH OF CARDINAL MANNING.

Full of years and honors this illustrious prince of the Church of Rome died yesterday at Westminster, after a brief attack of influenza. He was born July 15th 1808, and was therefore in his 84th year. He was son of William Manning Esq., M.P., of Totteridge, Hertfordshire, was educated at Harrow and at Balliol-Coll., Oxford, where he graduated B.A. in first-class honors, in 1830, and became Fellow of Merton College. He was for some time rector of Lavington, Sussex, and afterwards archdeacon of Chichester, until 1851, in which year he entered the Church of Rome. After being ordained priest he established a congregation called Oblates of St. Charles Borromeo at Bayswater, London, composed of clergymen devoted to education.

During the lifetime of Cardinal Wiseman he was advanced to the rank of Provost of Westminster and Domestic Prelate to the Pope. He was named to succeed Cardinal Wiseman in June 1865 and consecrated Archbishop, but did not receive a Cardinal's hat until March 15th 1875. He took his title from the Church of St. Gregory on the Cœlian Hill, which stands on the site of the ancestral home of the patrician prefect of Rome, who afterwards (as Pope Gregory) sent the first Christian missionaries to England.

Besides four volumes of sermons Cardinal Manning has left twenty books on theological subjects. He was a man of profound learning, calm judgment, winning manner and ascetic life, combined with the warmest sympathy for the poor. Nor was it merely for the suffering classes in his own country that his heart was filled with pity. He was an Englishman to the backbone, but there never lived a more cordial and unshaken friend of Ireland. He moreover exerted himself on various occasions on behalf of the Jews who were persecuted in Russia and Germany. Only a year ago the Chief Rabbi and other heads of the Hebrew community in London presented him with an address in testimony of their gratitude.

It is impossible for us to express the amelioration in the position of the Roman Catholic church in England which has taken place during the 27 years of Card. Manning's administration, and which was in some degree owing to his wisdom and to the esteem in which he was held. Some of the English papers were accustomed to speak of him as the real Bishop of London, and every meeting of Englishmen took occasion to pay him honors that were never before paid to a Roman Catholic prelate since the Reformation.

Dr. Vaughan, Bishop of Salford, and Dr. Butler, president of St. Charles's college, Kensington, are spoken of as likely successors to the primatial see of Westminster.

THE NEW BRANCH OF THE ROSARIO RAILWAY.

In the midst of things uncertain, and in many respects disheartening, such as the country financially presents at present, it is always pleasing and satisfactory to turn to the side of steady and undoubted progress. And this we say in reference to the advancement and prospect of the railways of the country, another proof of which we have in the new branch of the Rosario line, which is being constructed, for the present, as far as the Tigre, and which has in part been open for traffic during the past year. Not that we can look upon the new line, so far, as forming a very important and additional factor in the commercial and industrial development of the country, but as an additional and important factor for the convenience, and we may add, for the pleasure and travelling variety of the public; and, also, as a proof of the latent resources of the country, and what, more in general, it could have been, and may still become under proper and efficient management.

On this account it is that we refer with satisfaction to this new branch of the Rosario line, which for the past two months has been extended to and been opened for traffic; as far as San Isidro. In three months from this it will have reached San Fernando, and after a somewhat longer interval, it will be opened to the Tigre. It was the original intention of the company to extend the new line farther, and whether the Tigre will or will not be its terminus, seems to be still somewhat uncertain.

Starting from the Central, and having passed its third station on the Rosario line, the new branch opens up its own ground, stopping at, and having as stations, Coghlan, Saavedra, Florida, B. Mitre, J. Anchorena, and its present terminus San Isidro.

Having passed the station Mitre, the line takes the direction of the river, which it joins almost immediately. Here, to say the least, the view becomes delightful and picturesque. On one side extends the broad, expansive waters of the River Plate, and on the other the sloping banks of some of the prettiest quintas in the country.

Amongst the properties through which the line from this point passes, besides those of Sr. Anchorena and a very large number of leading native families, may be also mentioned the properties of those whose names are familiar to the English-speaking community, such as Messrs. Wilkinson, Shaw, Bouwer, and Lynch. A large number of the owners of the properties have erected pretty quintas, which from the banks above overlook the river.

All along by the river, the construction of the line has been sustained in the most scientific and perfect manner, supported by well and beautifully constructed terraplains, or embankments, with sleepers of the hardest timber of the country, and so secure that at some parts the sleepers do not measure more than half a foot apart.

Once the line approaches the river, it keeps in its closest vicinity, and, even when completed, will not part company with it until the Tigre be reached. At some points it runs so close to the river that there is not more than an interval of twenty yards from the water's edge. And, in order to provide against any danger of floods, a sea-wall of brick and cement has been constructed, about three thousand yards long.

All this work, we must say, has been completed in first-class style.

By far, however, the most important works of art of the line so far are the bridges and viaducts which overlap the Northern Railway and span the roadways at its side. It will not be necessary to occupy space, or to delay in entering into details of the construction of these bridges, or to give the figures of their dimensions, as few of our readers will fail to see them. Suffice it to say that this one work of art alone would be more than sufficient to vindicate the ability and scientific skill of the constructing engineer, Mr. W. McDonald, of San Isidro.

The stations too which have been erected will, for uniformity, neatness and convenience compare with any line in the world—the one at San Isidro, for its spaciousness and elegance, being especially worthy of note.

This new line, especially when completed, is sure to be largely availed of, not only for convenience, but also for pleasure and attractive variety. Where it joins the river there are few, if any, railway trips in the country more enjoyable or more picturesque.

Too much cannot be said for the manner in which the work so far has been carried out. From beginning to end it is all of a piece, perfect in its way. Everything in the work seems to be in perfect harmony one part with the other, and the whole reflects in the highest degree to the credit and skill of the engineer.

We may add that Mr. McDonald was for sixteen years assistant-engineer to the Great Eastern Railway in England, during which time many and important works were completed under his direction. On the completion of these works, he was entrusted with the construction of one of the largest railway and goods deposits and warehouses in England, in connection with the Tilbury Southern Railway and in combination with the East and West India Docks.

The present work will but add one more to his other successes, and when completed two double line swing bridges, will span, one the Canal of San Fernando and the other the River Tigre, than which there will be few more important even in England.

LATEST FROM MONTEVIDEO.

Jan. 14th.

In regard to the Uruguayan Bank question it appears from a telegram to Mallmann and Company that the syndicate in London expect the Uruguayan public to subscribe a certain number of shares in the proposed concern. The syndicate are evidently afraid of holding all the shares. Still, it will be difficult if not impossible to persuade people, in the present crisis, to subscribe here. It is rumored, in connection with the foregoing, that the Finance Minister, Dr. Ramirez, is going to resign.

Three important newspapers here—the *Razon*, *Siglo*, and *Tribuna Popular*—announce their intention of joining the ranks of the opposition against the Government.

There appears to be no doubt that the suspicious case landed from the Ortegal on Flores Island is one of yellow fever. The other passengers are in good health. The Orione passengers are also in good health. There are two fresh suspicious cases on board.

The political situation is by no means quiet, as alarming rumors are afloat. The *Epoca* states that several leading army officers held a meeting with a view of urging the President to proclaim himself dictator. The same paper adds that these officers were determined, in case of the President's refusal, to overthrow him. It goes on to say that Dr. Ramirez consented to withdraw his resignation provided two commanders in the army be dismissed. The President acquiesced. It is rumored that the President will close the Chambers. This is supposed to mean that the London negotiations have fallen through.

There is a tremendous row going on in the papers about the attitude of the Argentine Government in declaring Montevideo an infected port. The papers maintain that Uruguay strictly observes the International Sanitary Convention.

PROVINCIAL NEWS.

There is a piscatorial hue about things in Mendoza. It is whispered that groups of armed men have taken up strategic positions, and that something is bound to happen. In the meantime the Governor has replied to the telegram from the Minister of the Interior here, appealing to his patriotism not to kick up a row. The Governor's telegram is as long as a letter. He does not tell the Minister to mind his own business, but he shews that he (the Governor) is in the right and the Legislature in the wrong. He makes a few disparaging insinuations in regard to certain honorable members who appear to be in debt. There is nothing extraordinary about a man being in debt. The Legislature, as soon as it meets, will impeach and dismiss the Governor, at least so the latest telegrams say. Invitations have been placarded up for the people to assist at the debate from the galleries. In other words, preparations are being made for a stormy sitting. The Mendocinos are playing with fire. The Governor laughs at the idea of firearms having been imported from Chile. The Mendoza papers were full of "denuncias" about the importation of war material, and the Governor named a committee, comprising the people who made the "denuncias," to enquire into them. In spite of this step, the rumours continue. It is said that both parties are armed in Mendoza. The facility with which politicians arm themselves is enough to make each particular hair on the pate of a peaceful resident stand on end like quills upon the fretful porcupine. Our contemporary the *Razon* of Rosario says that one of the political parties there is arming. It is the old story—politicians clamoring for arms, and peaceful settlers for hands.

Sad news comes from Entre Rios. Young Mr. Sagastume, a grandson of the late General Urquiza, was riding to his estancia near the town of Uruguay on Tuesday evening, when a storm came on, and the lightning struck him on the head. The body of the unfortunate young fellow was found the next morning. Mr. Sagastume was a young man held in high esteem and was greatly liked by every one who knew him. Riding in the open camp in a storm is most dangerous, and deaths by lightning are by no means unfrequent. Amongst the ancients such accidents were so rare that death by lightning was considered as a special mark of favor from the gods.

On Monday Rio Cuarto was visited by a storm the violence of which fairly surprised the oldest inhabitant there. Part of the town was inundated, and considerable damage was caused in the environs. The same storm paid a flying visit to Santa Fe and knocked over telegraph posts like tooth-picks. Hailstones of enormous size fell.

DR. HERMANN BURMEISTER.

(Communicated.)

To-day, Jan. 15th, the grand Scientific Colossus, Dr. Burmiester, completes his 85th year. His long and useful life has been devoted to advance the progress of the age, and his works on Geology and all the branches of Natural History are established authorities in Europe and America. The compeer of Owen, Darwin, Agassiz, Huxley, Milne Edwards, he appears like a light-house in the midst of the ocean, guiding on humanity in its course towards progress and enlightenment. Dr. Burmeister is strong and hearty and works with the activity of a youth. He is never idle, and the immense collections of animals and fossils in our National Museum have all been prepared, adjusted and classified by him, while he has written no fewer than 144 works during his laborious life, nearly all of them adorned with beautiful plates drawn by his unrivalled pencil, for he has the gift of being severely correct in his drawings and yet finishing them with all the refinement of good taste. We congratulate him on his birth-day and hope he may live to see many more.

PARIS LETTER.

(From our own Correspondent.)

It is from its repercussion on Europe that the Chinese question is delicate. It places France somewhat between the bark and the tree. She, claiming to be the representative and protector of the Catholic interests in the Far East, is naturally called upon to take the firs steps in putting a stop to and vindicating the atrocities committed on the missionaries and their flocks. Unaided, she is unequal for the task; nor would the Republican Chamber ever vote men and money to enable her to fulfil it, although Gambetta laid down that "clericalism was not an article for exportation." In this conjuncture of Chinese history the attitude of Russia has to be narrowly watched. If she be sincere in her 'entente' or 'alliance' with France, now is the time to exemplify it by striking in. The Muscovite does not seem inclined to do any such thing; he would like to see all the other powers engaged, and then, declaring his neutrality, claim special recompense from China.

It required no keen vision for England to anticipate that game; nor has it been other than a stage secret that England, despite some Chinese rebuffs, would counteract the play of Russia by ostentatiously standing by the Celestials; if she has had no secret treaty with China already, that is believed to be now concluded—perhaps not denied would be the most expressive word. With China for ally, England can sweep the Russians in Central Asia, but she might not be able to arrest their incursions into French Indo-China, if the Gauls engaged in the Quixotic venture of chastising the Yellow race. There is also the possibility, that after officering and arming the Chinese and lending them another "Chinese Gordon," the Celestials having disposed of the French and Russians, might try a fall even with the English themselves.

To parry that eventuality England has encouraged Germany and Italy to take an interest in the affairs of China. Italy has no relations with the Honey Land, but she accepts the invitation of England as a Latin and a Catholic power, to be run against France, just as the latter induced Russia to figure in the Egyptian question, with which Russia has not a particle of interest. It is diamond cut diamond.

France is divided into two very sharply defined camps on the question of expansion or non-expansion of the colonies. The advocates of the former can show no proofs of positive success. As was stated recently when the colonial estimates came on for discussion, the French avoid their own colonies; the latter are a dead loss for the mother country, draining her annually in ready money to the extent of 400 fr. millions, while the total set off receipts do not amount to 80 million francs. And yet the ambition of France is to grab more anp more new territory with all its attendant dangers and costly risks. The number of societies for platonically developing French colonies or adding to their area is legion, so are the special publications to back up the same ideas. But I find these patriots of light and leading are nothing better than the blind leading the blind. All are arm chair emigrants, not one of them dreams of ever pitching his tent in Madagascar, the Congo, Senegal or Tonkin. And less excusable still, no capitalists combine to form chartered companies to work any colonial concession, while the latter could be obtained without difficulty. After sixty years of occupation and the outlay of millions of francs and the expenditure of thousands of lives, Algeria cost the mother country last year a net loss of 19 million francs; and the country is held by France keeping her hand on her sword-hilt. The natives detest her, tell her so, and only long for the occasion, to drive the French—and all other foreigners—into the Mediterranean. Argentina attracts French emigrants, because the latter are free from the upas influences of French functionaries. It is a maxim that France founds colonies to provide berths for her played-out politicians and election wire-pullers, and also commerce and trade for the English. And she will continue doing so till the end of the chapter.

There is nothing remarkably original in the revised "Memoirs of Comte Buest", the late Austrian Chancellor, and yet no statesman has had greater opportunities for studying contemporary celebrities. The most interesting figure in the "Memoirs is the Count himself. A German to the manor (Saxony) born, he resisted Bismarck in his schemes for the unification of Fatherland, and sided with Austria. After the latter was crushed at Sadowa, the Emperor Francois-Joseph called in Comte Buest as medicine man fur his Mosaic empire, and Buest succeeded in keeping Hungary attached to Austria, by the dual plan of Government. Bismarck hated Buest and compelled the latter to be recalled as Austrian Ambassador to France in 1882, owing to his pro-Gallic sympathies. Nearly all the anecdotes referring to Bismarck are old properties; but the leading weaknesses in the character of Thiers, vanity and self-omnipotence, are well brought out.

Comte Buest, in his sympathies with French society, had much in common with the late Lord Lytton. Both had a dominant weakness for literature, art, and intellectual society. The late English Ambassador will be difficult to replace, on account of his many social qualities. It was by not being a diplomatist that he succeeded with French diplomatists; when they talked of politics he thought about poetry. The deceased was not a rich man, yet he never let down Old England under the head of hospitality; his Countess had the happy knack of winning and keeping friends and was rapidly becoming the first power in the fashionable world. The French Government honoured the remains of Lord Lytton with the honours given to the interment of a Marshal. Most conspicuous amongst all the gaudy uniforms of the diplomatic and official world was the American Minister, Whitelaw Reid, in his plain black coat. There seems to be quite a steeple-chase for the succession to the British Embassy here. It is the best plum the Foreign Office has at its disposal—£9,000 a year and all found"—save board, together with highly paid secretaries and attachés.

The death of Dom Pedro was so long expected, that when the event occurred, it created nothing sensational. Since his loving subjects exported him, against his will, to Europe, he was a dead actuality. He was harmless; his scientific fads were humored, but he never ranked higher than a kind of imperial or human curio. He did harm to no one, not even to himself. He was relatively a poor man, and nothing could surpass the simplicity of life of himself and family. His daughter, who succeeds him as pretendress to the Brazilian throne, is reported to be what Napoleon I. said of the Duchesse d'Angouleme—"the man of the family."

Opinion here takes much interest in your elections for the coming President: the hope is unanimously expressed that all rivals will never forget that Argentina's welfare is the goal to be attained.

SOUTH AMERICAN NOTES.

(From the "European Mail".)

The English and continental Courts are still in mourning for the late Emperor of Brazil, who now lies buried in the royal vault of the Braganza family at Lisbon. Almost the last words of the old Emperor were, "Pray with me for the greatness and prosperity of Brazil." The Comtesse d'Eu has no intention of entering any protest against the existing Brazilian Government, though she expresses her readiness to return to Brazil at the first summons.

The Uruguayan Government ought to see by this time that the arrangement concluded with the Council of Foreign Bondholders is most distasteful to the holders of the Unified Five per Cent. Bonds, and, instead of insisting upon carrying it into execution, they would do well to withdrow it without more ado, and so put a stop to the agitation which is seriously injuring the credit of the Republic. The hands of the London committee have been considerably strengthened by the meeting held at Antwerp a few days ago, at which the scheme adopted by the Council of Foreign Bondholders was unanimously rejected. An Antwerp committee was appointed to assist at the London meeting and represent continental holders.

The opposition to the scheme of the Council of Foreign Bondholders is growing stronger and stronger. Mr. C O'Leary has written to the London daily papers a long letter, sketching the action of the council in the matter. The council, he says, were approached last summer by various large holders and requested to appoint a committee to confer with Dr. Ellauri and examine certain proposals for the arrangement of the debt of the Republic. This they did, and after protracted negotiations the conversion scheme—now desired to be set aside—was submitted to the council for their consideration. The council, while recognising the necessity of affording some relief to the Government in its financial straits, thought that a further effort should be made to limit the reduction of the interest to a few years, and thus minimise the permanent sacrifices imposed on the bondholders by the proposed arrangment. Accordingly, they returned the scheme to the committee with an expression of their opinion to that effect. The committee, says the secretary, "did their best to induce the Government to agree to this, but in vain, and they had to choose between the present arrangement and a suspension of payments.

Messr. Baring Brothers & Co. wish to inform the holders of bonds of the City of Montevideo Sterling Loan of 1889 that they are in constant communication with Dr. Ellauri, the representative of the municipality of Montevideo, with a view to an arrangement of the debt. They are using their best endeavours to come to an agreement which might be acceptable, and as soon as the arrangements are concluded will call a meeting of the bondholders, to submit the proposals for their consideration.

There is evidently going to be a hard fight for business between the London and River Plate Bank and the newly-formed British Bank of South America. Indeed, it would seem as though this latter financial institution had decided to pay 75,000£, to the Banco Credito for right of re-opening in Brazil chiefly, if not solely, because the London and River Plate Bank has decided to open a branch at Rio Janeiro; and, strange to say, the manager is to be Mr. Joseph Lambley, at one time the head of the Santos branch of the English Bank of Rio de Janeiro, and lately the manager of its chief office in the Brazilian capital. Mr. Tootal, who acceded to the wishes of the board to go out to Rio to obtain the charter necessary for opening the branch there, to arrange for suitable premises, and engage the staff, has just returned, and the report he gives of what he has done makes the board feel perfectly satisfied as to the step they are proposing to take. As already stated, Mr. Herdman, who has recently been elected a director of the bank, is now on his way to Rio, where he is well known and widely esteemed, and he will doubtless be able to give such advice as Mr. Anderson is now giving in Buenos Ayres.

The directors of the Anglo-Argentine Bank have done the right thing in taking the "bull by the horns" and passing the dividend for the past half year. The fact is the long continued and unprecedented commercial crisis in Argentina, the enormous fluctuation in the price of gold, coupled with the rise in the premium from 143 per cent. in September, 1890, to 320 in September, 1891, the "Moratorium" (or delay granted by Government to all debtors), the failure of banks and of other houses previously of high standing, and the utter disorganisation of credit throughout the country, have resulted in various losses to the bank. These have been carefully estimated and provision made for them. There are, in addition, certain doubtful accounts which, were they closed at present, would, in the directors' opinion, probably require a further provision of about 30,000*l.*, but with the revival of credit and a fall in the premium on gold, which has already receded to 267, there is reason to hope, that such provision will not be required. The branch at Montevideo has proved profitable, and no losses have been sustained there. Altogether the accounts to September 30 show a gross profit of 34,748*l.*, including 1,192*l.* brought forward. After deducting expenses and the interim dividend paid in June, making provision for bad debts, and transferring to profit and loss the 10,000*l.* placed in reserve last year, a balance remains of 4,443*l.* to be carried forward. It is now abundandy clear why the shares are so low in the market. At 30s. a-piece, however, they ought to be worth buying.

GREAT SOUTHERN RAILWAY.

Jan. 13th.

Mr. Editor,—

In your issue of Jan. 12th you publish an extract from the "River Plate Railway News" referring to the passenger train service between Buenos Ayres and Mar del Plata. I have taken out the delays, and find that from Dec. 1st to Jan. 12th (42 days) the train arrived at destination 25 times "on time," 5 times less than half an hour late, and 11 times more than half an hour late. On the date he writes, instead of being 2 hours 40 minutes late, the train was 54 minutes late. The day previous the train arrived "on time" and not an hour and a half late, as stated.

The running of these trains would not be satisfactory under ordinary conditions, but allowance should be made for the special nature of the traffic, as on the best English lines it is found to be impossible to maintain strict punctuality at holiday times.

With regard to the state of the road, we have suffered very severely, particularly in the district between Dolores and Mar del Plata, from the incessant rains which continued through the spring and well into the summer. The camps were flooded, our banks became sodden, and with nothing but earth ballast it requires a long spell of dry weather to enable the road to be restored to good running order. The work is well in hand, and the inconvenience complained of is practically at an end.

The "confiteria" service at Plaza Constitucion should not be blamed too severely for failing to provide a "recherché" dinner for a train so late as 9 45 p.m. leaving in view the few casual passengers for whom provision has to be made.

Yours faithfully,
J. Barrow,
Gen. Manager.

RAILWAY ITEMS.

There was quite a flutter in guaranteed railway circles yesterday, owing to the report that the Home-Minister is determined to make the lines carry out their contracts and reimburse the Government 50% of the gross returns. In order to smooth matters, the Minister will not ask for hard cash, but soft Moratorium bonds. The Minister expects in this way to redeem 15 millions of these bonds. At present the guarantees are paid in Moratorium bonds, so that the operation appears to be no difficult matter.

The manager of the Central Argentine writes to inform us that there is no truth in the report that traffic has been suspended on the line between Rosario and Cordoba.

Mr. Michael Fay, Chief of the Accountant's Office attached to the N.R Board, has reported favourably on the application of the North East Argentine Railway Company to be allowed to use masonry instead of timber in building the supports of the bridges across the San Lorenzo, Pasito and Esterito.

Engineer Rafael Leon has been appointed technical inspector on the North West Argentine.

The Board of Public Works have dismissed Engineer Walter, in consequence of his non-compliance with instructions given to him. Engineer Pallavicini has been appointed technical inspector on the Corrientes railways in lieu of Engineer Corniano.

We note that Engineer Senrot has reported favorably on the application of the Salta Government for the opening of new roads in that province.

EDITOR'S TABLE.

The British community here will be shocked this morning at learning that the Duke of Clarence's brief illness terminated fatally yesterday morning. It is a very sad event indeed, considering his recent betrothal, at which the whole of the United Kingdom rejoiced. In the death of Cardinal Manning the Catholic Church loses one of its greatest lights; but he lived long beyond the alloted span, full of honours and virtues, and a household word amongst his countrymen of all denominations.

Politics were again tropically hot yesterday, and the Gold Eagle made another upward bolt that has brought him again within measurable distance of the 400 peak. Wheat, wool, gold from our London friends, etc. etc., all seem impotent now to hold the terrible bird down. How is it all to end?

There was a lot of yellow fever talk yesterday; but we believe there were no fresh cases to add to those on board the steamers in port, already known. The case of Frau Hut, in the Rawson Hospital, which gave such a lot of people palpitation of the heart at first, turned out to be merely a cold in the stomach. At evening it was known that one of the patients on board the Ortegal had died of the fever. The body was placed in a boat, and corpse and boat will be burned to-day.

The Minister of the Interior sent a telegram yesterday to the Governor of Mendoza telling him that he (the Minister) by order of the President, had telegraphed to the Legislature his (the Governor's) promise to do all in his power to settle matters, and begging it to accept the guarantees offered by H.E.

Dr. Udaonda has arranged the Health Board quarrel with its Mount colleague. Both Boards will order their delegates in Rio not to give certificates for loading or discharging there unless it be done at suitable pontoons, in quarantine.

The Minister of the Interior's mooted project to make the guaranteed railways pay back what they owe the Government, in Moratorium Bonds, made all those connected with the railways in question look prematurely old yesterday. What will our poor London friends say?

We have to thank Messrs. Galli and Co. for a supply of English illustrated papers that will make our hearts fee glad and our hats light for a whole week to come.

We have received reliable information that the water of the Madero Docks has no foul smell, but that the approaches to the docks, owing to the neglect of the Municipality, are in a shocking condition and exhale the awful stench that has been so prevalent recently in the early hours of morning.

The following team will represent the London Bank *v.* Buenos Ayres on 17th inst. at Palermo, viz: J. Gifford, G. A. Thompson, W. E. Coubrough, C. W. Thompson, J. F. Barnes, H. W. Ricketts, J. Earnshaw, R. C. McKinnell, R. L Rumboll, J Christie, J. Stuart. Play at 11.30 a.m. Train from Central at 11 a.m.

We have received the following note in reference to our remarks on the improvement in the Belgrano Tramway in last Tuesday's issue:—

"Salud, Compatriota.

"There is much room for improvement yet. Two days after the publication of a letter of mine in your paper the Company did actually put on 6 more coaches per hour. Even this increase is inadequate. In a few days, perhaps, I shall manifest myself to you again as the exponent of public opinion".

We come to thank Cesar, not to puff him. We do not refer to the man who "came, saw and conquered", but to Don Feliciano Cesar, director and proprietor of the "GuiaComercial", a copy of which he kindly sent us yesterday, and we can recommend it to all business men. Give unto Cesar what is due to Cesar; in other words, buy his useful Guia.

We have to thank Messrs. Mackern and Shine for late London papers. The illustrated sheets are full of "Our Future Empress Queen," the Princess May of Teck, so it would appear that John Bull has no intention of trying the perfumed republican system for a rather long time to come—if ever.

Mrs. Cook and Mr. Homeyer announce a grand concert in the Orfeon Theatre at Mercedes for Sunday night next. The programme is of the best; and, no doubt, there will be a crowd, as such a "rato de solaz" is not often to be had for one shinplaster in easy-going Mercedes.

The tickets for the Irish Orphanage Art Union Drawing on Feb. 17th are to be had at the Convent. There are $100 valuable and useful articles in the chance, which only costs $1 paper. This is indeed low when there are most valuable engravings and oil paintings amongst the prizes.

We had the pleasure of seeing the "Revista Rural" yesterday. It is full of bucolic news, and also contains a most interesting article on the well-known Espartillar estancia.

Wednesday night was meteorologically glorious. The temperature was that of middle autumn, and the harvest moon was such a size when it rose that the Man in it looked as he had a bad attack of erysipelas in the head, and the doctor had refused to attend him, unless paid in advance.

The latest news about that Coming B (bank) in Montevideo is that our London friends won't subscribe unless the "comercio" of Uruguay's capital lead off in that direction. Catch them at it.

The note of the Minister of Education to those sentimental and good people in Rosario who asked him to replace the Rector of the National College in Rosario, in spite of Chief Inspector Fitzsimons's crushing report on that establishment, is really a masterpiece of polite literature, in which the Minister very properly refuses to accede to the extraordinary request. Kissing no longer goes by favour in the Education State Department.

The death of Colonel Alvaro Barros has caused general regret. The deceased officer could wield the pen as well as the sword; he was the founder of the *Pueblo*, and at one time editor of the *Nacional* and other papers.

The G. P. O. has made a haul of Argentine coppers. Some enterprising Ligurian who had devoted all his intellect and energy to collecting them, sent two big boxes of the coin to Genova la Superba, calculating on making a whacking profit and repeating the operation. The Genoa Custom House has sent them back, and the P. M. G. has confiscated them for his department, according to law. That Ligurian will probably retire for good from the copper trade.

The *World* of New York says:—"The resemblance of Sir Edwin Arnold to Charles Dickens attracts general attention among New Yorkers who have the opportunity of comparing the appearance of these distinguished Englishmen, whose visits are a generation apart. If Sir Edwin is so much better a speaker, according to American ideas, than most of the other lecturers Great Britain has sent or lent us, it may be because he is so much better a journalist."

The builders who are running up the new Hotel de Ville in Plaza Victoria have been caught using bad mortar. This is awful. We appeal to their patriotism not to "jerry" the new edifice, lest it come down by the run some day and bury the Lord Mayor and City Papas. What would become of the city if such a thing happened.

The new hackney fares are now in force: 70 cents for a trip, $1.25 per hour for the first hour, and 25 cents per every quarter of an hour after. People should not pay a cent more. The rascally Jehus overcharge scandalously, especially unprotected ladies, who nearly always make the mistake of asking the "whip" what he will charge. The proper thing to do is to enter the carriage and merely tell the fellow on the box where to drive to. They are all bound to have the tariff hanging up in the carriage?

The big tobacco and Havannah 'weeds' smuggle during the late regime is the talk of the town. Twenty three different cases of defrauding the Customs are enumerated, and the amount due the Treasury is $150,000.

The Court of Appeal is to be moved into ex-President Roca's former residence in Calle Suipacha, near Lavalle. The Judges should take a lot of "Rough on Rats" with them, as the place is infested with the vermin, and every one of them as big as a rabbit

The Lord Mayor is about to take vigorous steps to stop the vandalic destruction of the trees planted in the streets. It is a disgrace to this once "culta ciudad." But a few years ago there was no "canaille" here, and such outrages were unknown; but Assisted Immigration has unfortunately changed that happy state of things.

"The Devil Himself" is the name of the zarzuela that will be performed tonight for the first time at the Comedia Theatre. We hear it is very laughable.

Señor Mallarino, the well-known Pergamino brewer, killed himself on Tuesday. He had been in very poor health for some time.

There is thirsty news from Rosario, where the local Chief Analyst has examined the pipe-water and officially reported that it is unfit to drink by itself, and of no great shakes for making tea, punch, or Port negus.

Mr. Paul Grant is requested to send his address to his sisters in San Pedro; they have something important to tell him.

A nobleman, who had spent much money in adorning his garden with statues, was one day very much chagrined by hearing an old countryman say to his wife—"Jist see, Susan, what a waste! Here's nae less than six scare-crows in this wee bit of the garden, while ane of them would keep the crows from a ten-acre field."

It has been stated that the Australian tribes are wholly without religion. This is an error. They believe that the god who comes down at the "borrah" is good and powerful; that he saves them by his strength; that he is very ancient, but never grows older. The Mycoolon tribe believe in life after death, in Yalairy—the road to which is the Milky Way. Here a spirit will look after them, and here they will find trees, water, game, dogs, and their women and children.

A Montreal manufacturer says that nearly all the American boodlers now in Canada exhibit signs of prosperity. They endeavor to make themselves agreeable and companionable and have been successful in exciting the sympathy of the Canadians. John C. Eno, who is supposed to have got away with $4,000,000, has a magnificent residence in Montreal and spends money lavishly.

It is proposed that an Excursion of Members and Friends should take place to Colonia by special steamer on February 2nd 1892.

As a certain sum has to be guaranteed beforehand to the steam-boat owners, this cannot be organized unless at least 80 persons subscribe to take tickets.

The cost of the ticket with lunch, etc. will be $8 m/n.

The price of the tickets which were purchased and not used for the Excursion to La Plata will be fully returned on presentation of the ticket, or these can be exchanged for others for the Excursion to Colonia by paying the extra dollar.

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Thursday, Jan. 14th.

In spite of a rumored improvement in the political situation and of a very large supply of the precious metal, gold rose so steadily this morning that the market was staggered, and wondered what fresh complications were upsetting the equanimity of the speculation. At an early hour one of the leading brokers began picking up ounces right and left, and the small fry immediately followed the leader, thus helping to put up prices and cause a mild scare. We may add that some speculators avail of the present critical situation to spread the most extraordinary rumours; that these now affect the market there can no longer be any doubt; there is a deep-rooted conviction in the majority that if some of these rumors be true it would be necessary for the Government to adopt the most stringent measures under martial law. It may be assumed, however, that there is no foundation to many of these alarming reports, but the market is timid and gold rises, because people are beginning to believe that the Government is weak and its opponents are strong; in other words, there is a fear that the elements of disorder will defeat those of Government; hence the rise in gold to-day.

It cannot be denied that the market fears not so much revolution as a 'coup de main' or conspiracy. Some people make it a point to spread dismal rumors in this regard, and if these rumors produce the effect desired—that is to say a very heavy rise in gold—the market will give them credit and indignation will know no bounds. Common sense, nevertheless, turns into ridicule the present artificial agitation and laughs to scorn the dynamitard "canards" of speculative dealers; yet, some impression is left upon the market; and in the mind of the public at large we see general uneasiness, whilst every man in the street has the query—What's up? When will the revolution take place? The market is neurotic and gold is epileptic.

About twenty-five thousand ounces were showered on the market this morning: the supply threatened to swamp the market and bring down prices, when one of the most prominent of dealers stepped forward and began buying very heavy amounts: this immediately turned the tide and caused a strong bullish reaction: the price opened at 62.30$, rose steadily to 63, and closed hard at 62.80, say 286% premium. Sovereigns were more active; 2600 were sold: the market opened at 19.40 and closed at 19.50, say 287% premium. The rise in gold has the injurious effect of confirming to a certain extent the rumors rampant in the market with regard to the very critical condition of politics.

Business in Patriotic Bonds collapsed completely this morning: not a sale was effected at the first ring. Catalinas shares glided down silently to 6.60 and Constructora de Flores to 2½. Shares of the old Gas Company, series A and B changed hands at 68. Spanish Bank was done at 86. La Plata Cedulas were slightly firmer.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

The exchange market was a shade firmer this morning. Francs improved about one centime. A small business was done all round at 48⅞ to 48¾d., and 5.15¼ to 5.16 fcs.—a very dull market. Discounts show no improvement.

The Lamport and Holt Agency inform us that their fine steamer Wordsworth, Chevalier Hairby, will leave London on the 15th February for Montevideo and Buenos Ayres direct, without calling at the yellow fever shores of Brazil.

The National Government have not yet issued the threatened decree declaring Montevideo a "suspicious" port, and all vessels therefrom liable to quarantine. At the last moment it was resolved to send Dr. Udaondo to Montevideo to make a last effort before resorting to extremities. We may anticipate that the Montevideo Health Board will give in, and thus put an end to a very disagreeable question. We may add that quarantine on vessels from Montevideo would imply a death-blow to the bathing season at the Pocitos; Montevideo would lose millions by such a measure of our Health Board.

The following sales are reported:—4049 hectares of land in the district of Azul for $154,000; sellers, the heirs of the late Francisco Chas; buyer, Mr. J. Remsere.

1162 hectares, also in Azul, for $65,500, belonging to the Chas "testamentaria;" buyer, Sr. M. Quintana.

2,500 steers in Dolores at 35$m/n per head.

10,000 salted ox hides, from the saladero of Lazaro Repetto, at 14$ gold per 100 kilos.

1,500 pipes of tallow, 20 % "bordalesas," from the saladero of Rocca and Co. in Magdalena, at 11½ put on board.

The accounts of the Anglo-Argentine Bank, Limited, for the year ended September 30, show a gross profit, including £1,192 brought into the accounts, of £34,749, less £17,656 written off for bad debts and depreciation. After providing for the interim dividend paid last June, and transferring the £10,000 placed to reserve last year, a balance of £4,443 remains to be carried forward. The directors refer to the fluctuations in the gold premium, the "moratorium" granted by the Government, and the general disorganisation of credit as affecting the working for the year. There are, it is remarked, certain doubtful accounts, which, if at present closed, would probably require a further provision of £30,000; but, with the revival of credit, etc., it is hoped that such provision will not be required.

Affairs in the produce markets continued dull this morning: in view of the rise in gold, prices of wool stiffened, but little business was reported. Arrivals continue small. Farmers are storing wool outside, waiting for a great rise in gold and collateral rise in paper prices. The sales in the Central Produce Market this morning were calculated at 150 tons of wool and 200 tons in the Plaza Constitucion. Wheat continued slightly firmer, but operations were small.

The Highland Scot Canning Company have bought in these days about five thousand head of cattle.

Twenty thousand have been bought at reserved prices for the La Negra establishment in Barracas.

The cheques of the State banks show no alteration: 38½% discount for those of the Provincial Bank and 26½ for those of the National Bank. English Bank cheques are quoted at 17% discount. Bonos of the La Plata Mortgage Bank are at 83½% discount.

Paper rates of exchange at the banks are as follows :—

London and R. P. Bank—London 12 9/16, Paris 1.32, Italy 1.35, Germany 1.06, Spain.

London and Brazilian Bank—London 12⅜, Paris 1.33, Italy —, Germany 1.07.

Gold ruled hard at the second ring. Fifteen thousand ounces were sold for to-morrow: the price opened at 62.70$, rose to 63.30$, and closed at 63.10$, say 287⅞% premium. Sovereigns closed at 19.55$, say 288% premium.

The special correspondent of the Bolsa telegraphed to-day from London the death of the Duke of Clarence. All the members in the hall shared the grief of their British colleagues at such a sad event.

Patriotic Bonds closed at 58 this afternoon. La Plata Cedulas ruled very dull and weak.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

From the *Montevideo Times* we take the following referring to the reduction of port dues in Montevideo:—

"The seal of the Executive was put to this Bill on Saturday afternoon, and it is consequently now law, coming into effect at once.

"The benefits of the law may be summarised as follows:—The light dues not State Lighthouses (Punta del Este, Isla de Flores, Banco Ingles, Cerro and Colonia) are reduced to one cent per registered ton. The licence (patente) for steamers, according to the law of May 11, 1881, is entirely suppressed, but there remains the usual procedure to obtain packet privileges. The dues for the private lighthouses are reduced to Cabo de Santa Maria 2 cents, Polonia 1½, José Ignacio 1, Punta Brava 1, Farralon 1, and Panela 1 cent. The dues for the latter four are collectively 2 cents for vessels for Montevideo only and 2 cents for those inward bound. No dues will be exacted from vessels touching at any port of the Republic only to take in coal, provisions, pilots or hands, to await orders or to effect repairs. Vessels landing or receiving passengers or immigrants will, however, be subject to dues. Vessels from beyond seas calling direct at ports of Uruguay other than Montevideo will be subject to the dues as above. The remaining dispositions of the law refer to the prolongation of the concessions in compensation for the reduction of the dues, leaving open the question of expropriation."

AVISO

Informe sobre el Analisis Quimico del Whisky, marca "S.S.S."

Yo, el abajo firmado certifico que, a ruego de los Señores Wm. Stenhouse y Cia., Glasgow, he practicado un Analisis minucioso, y hecho examen microscópico de una muestra de

STENHOUSE'S SPECIAL SCOTCH WHISKY, de la marca
"S.S.S."

y tengo mucho gusto en certificar que el Whisky de dicha marca "S.S.S." es uno de los mejores que se me han presentado para examen analitico en mucho tiempo.

Lo encuentro enteramente puro y sin adulteracion alguna bien madurado y "especialmente adaptado para el consumo de las personas de salud delicada." Puedo recomendarlo con toda confianza

LAIDLAW'S

Tobacco Powder

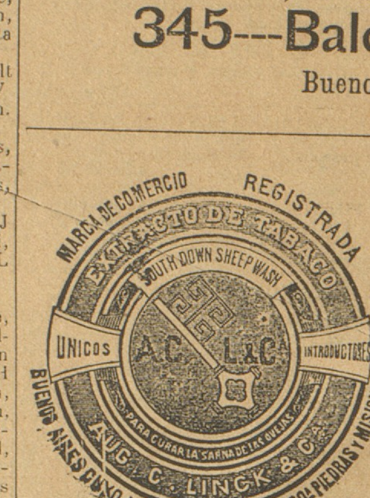

Laidlaw's Tobacco Powder has many advantages over
Arsenic Powders and Pastes for curing Scab.
Arsenic Powders and Pastes have many objectionable defects
Laidlaw's Tobacco Powder has none.
Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.
Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.
Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES
Dry and burn the wool, and diminish the quality and quantity.

EXTRACT
OF
TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturaly the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we haye witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.
